The approx. number of teams will be 12 male and 5 female. The organising committee will evaluate the participation of some teams in order to guarantee the presence of as many countries as possible and a homogeneous playing level.

4. Playing schedule

The playing schedule depends on the number of the participating teams.

Matches will consist of two portions of 8 minutes each. A minimum of 4 matches per team is guaranteed.

Due to the tight schedule, it is essential that all teams and referees get ready before the previous match ends.

UWR rules of CMAS will be applied.

5. Swimming pool

The "Costoli" pool is an open air one, 18 m. wide, 25 m. long and **4.90 m.** deep. The play-yard will be reduced to **18 m. x 12 m.** by means of temporary lanes.

Additional information about the pool will also be available on the Firenze Rugby Subacqueo web site (www.firs.it).

6. Services and Accommodation

Contrarily to the previous editions, this year the pool will be open to the public during the whole duration of the tournament. Hence it will not be possible to:

- Place tents on the green around the pool and, in general, have camping inside the plant or sleep outside of the gym during the night
- Use the olympic 50m pool for warm-up or other reasons

As a consequence we will not be able to provide you with breakfast and dinner and, furthermore, we will not organize any party on Saturday night inside the pool. Probably a dinner and a party for Saturday night will be organized in a public place close to the pool. Further details will be provided later on.

During the day a bar will provide food (sandwiches, pizza, ice creams etc.) and beverages, but no service will be furnished after 7 pm and before 9 am.

Athletes and accompanying persons will be allowed to enter the plant only by the main entrance and only showing the nominal pass that will be provided by the organization. For this reason admitted teams will be asked to furnish the complete list of participants and accompanying persons.

We can provide you with an accommodation for Friday and Saturday night in a gym in the same building of the pool. Given the large number of people that will enter the pool during the whole weekend, the organization will not be responsible for thefts and
